- Residential Address: #742, 12th Main Road, Indiranagar 2nd Stage, Bengaluru - 560038
- Mobile Phone: +91-9123456789

Statement Text:

"I state that on 12-August-2026 at approximately 16:45 hours, I received an emergency escalation call from the Chief Compliance Officer regarding unusual API anomalies on the primary core banking switch. Upon performing packet inspection on the production bastion logs, I observed multiple concurrent sessions originating from an internal workstation allocated to Sameer Verma.

I personally reviewed the cryptographic keystore and found that the master access token had been extracted using a modified memory scraping script at 02:14 AM on 08-August-2026. Sameer Verma was physically present in the server room during this timestamp as verified by the RFID biometric badge access logs.

When I confronted Mr. Verma regarding the anomaly on the morning of 13-August-2026, he appeared visibly nervous and abruptly left the facility claiming a medical emergency. I have preserved the forensic memory dump (MD5: e4d909c290d0fb1ca068ffaddf22cbd0) and submitted the encrypted thumb drive to Inspector Devendra Rao."

I have read over the above statement and confirm it is an accurate and truthful record of what I witnessed.

Recorded By: Inspector Devendra Rao (Badge #CCB-5542)

Witness Signature: Dr. Vikramaditya Sen
